- .2 Any Tenders received after the closing time shall be rejected and returned unopened to the Bidder. If only one Tender is received and that Tender is received late, the Tender may be accepted at the sole discretion of the Owner.
- .3 Tenders shall be opened as soon as practicable after the tender closing time.
- .4 Tenders received by facsimile, except as permitted elsewhere in this tender, will not be accepted and if received shall be disqualified.

3. AMENDMENTS TO TENDERS

- .1 Amendments to a tender may be made using the Bid Amendment Form provided that the amendment:

4. INUIT, LOCAL AND NUNAVUT INCENTIVES and Appendices "B-1" and "B-2"

1. The NNI Policy dated April 20, 2006 applies to this tender and any resulting contract. A copy of this policy is available at the following website: <http://www.nni.gov.nu.ca>. This policy can be downloaded in English, Inuktitut, Inuinnaqtun and French.
2. Consistent with the NNI Policy, one of the priorities of the Owner is to ensure that materials, equipment, labour and other goods and services of Local, Nunavut and Inuit businesses are used to the fullest extent practical on this Project. Accordingly, Tenderers are required to invite Inuit, Nunavut and Local companies to bid on subcontracts for the purposes of this Work.
3. Appendix "B-1" must be completed and submitted with the Tender.
4. Appendix "B-2" must be completed and submitted with the Tender. An Appendix "B-2" that is received late or not received at all will result in denial of any NNI Bid Adjustments the Tenderer would otherwise be entitled to had Appendix "B-2" been received on time.
5. The Tenderer shall show intention to not only meet the Minimum Inuit Labour Requirement prescribed in **Appendix K** of these Tender Documents, but shall also maximize Inuit, Nunavut and Local Content by using as many Inuit, Nunavut and Local subcontractors and suppliers as possible.
6. If the dollar value of Total Inuit Labor identified by the Tenderer on Appendix "B-2" is less than the Minimum Inuit Labor Requirement set out in **Appendix K**, the NHC may accept the Tender, so long as the qualification is removed and the Tenderer is found to be the lowest responsive and responsible Tenderer after application of the Bid Adjustments. The Tenderer will be required to increase the Inuit Labour value identified on the General Contractor Appendix "B-2" with a

corresponding decrease in the value identified for "Other" Payroll. This commitment shall be made in writing and the amended B-2 shall be incorporated into the Contract.

7. A Tenderer, who on previous Contracts with a similar Minimum Inuit Labour Requirement failed to meet the Minimum Inuit Labour Requirement, may be deemed "not responsible" (as defined in the Government Contract Regulations) for purposes of the present Tender.
8. Failure by a Contractor to expend the proposed dollar values identified on Appendix "B-2" as Inuit, Nunavut and Local Content, including estimates for Inuit, Nunavut and Local Labour, for which the Owner applied NNI Policy Bid Adjustments, will result in application of 'incentive recovery' damages in accordance with GC55 of the Contract at the sole discretion of the Owner and as further described in **Appendix K** of these Tender Documents.
9. For purposes of this Tender, 'Local' shall be considered to be the community in which the Work is undertaken unless noted otherwise in these Tender Documents.
10. Joint Ventures: If a Tender is submitted by more than one party identified as a joint venture, (but not a partnership), for the purposes of the application of the NNI adjustments, each party to the joint venture will be treated as a separate contractor, and the value of their respective Nunavut, Inuit, and Local Content will be treated in the same manner as for separate contractors.

7. ADDENDA

- .1 Addenda issued prior to the tender closing time shall be incorporated into the tender and shall become part of this tender. Receipt of addenda shall be acknowledged on the Tender Form by the Bidder. Failure to acknowledge Addenda may result in the disqualification of the Tender at the sole discretion of the Owner.

8. TENDERING DOCUMENTS - Appendix "A"

- .1 Tenders shall be based on the documents listed in Appendix "A" "List of Tender Documents".

The Owner reserves the right to cancel this tender, in whole or in part at any time and to re-tender the same for any reason whatsoever without incurring any liability, and no bidder will have any claim against the Owner as a consequence.
- .3 The Owner reserves the right to negotiate the tendered price solely with the low bidder (after adjustments in accordance with the Nunavummi Nangminiqaqtunik Ikajuuti (NNI) Policy), in order to achieve a reduced scope of work and price saving of up to 15%. The Owner further reserves the right to re-invite tenders from the low bidders without going to public tender in order to achieve a reduced scope of work greater than 15%, so long as the fundamental nature of the contract has not changed.

Appendix B-2 is a schedule of expenditures that the successful bidder commits to in the categories of payroll and non-payroll. Non-payroll is comprised of Material, Equipment, Transportation, Accommodation and Other costs. In accordance with the NNI Policy and the General Conditions contractors are required to meet the expenditure commitments stated on Appendix B-2 and failure to do so may result in penalties.

"NNI" means Nunavummi Nangminiqaqtunik Ikajuuti which, roughly translated, means "Help for Inuit Businesses".

"NTI" means Nunavut Tunngavik Incorporated, a birthright organization that maintains the list of Inuit Firms.

To qualify for a bid adjustment under the NNI Policy, all bidders must submit a fully completed Appendix "B-2" form.

The Inuit content indicated by the bidder on Appendix "B-2" must equal or exceed the minimum acceptable Inuit content as expressed in Appendix K.

The terminology used on Appendix "B-2" may be confusing to some bidders and is clarified as follows:

- "Only NNI Registered" means those firms which are registered in good standing in the NNI database but are not Inuit firms;
- "Both NNI & NTI Registered" means those firms which are registered in good standing in both the NNI and the NTI databases;
- "Only NTI Registered" means those Inuit firms which are registered in the Approved NTI Inuit Firms list;
- "Other Expenditures" (second column from right) are for businesses not registered in the NNI or NTI databases. As a consequence no bid adjustment will be made on "Other Expenditures".

The owner will verify the Nunavut, Local and Inuit firm status of named companies as defined by the N.N.I. Policy. **The bidder must substantiate all information provided by including printouts from the NNI and NTI databases of all firms noted as "Suppliers" on Appendix B-2 with their tender.** No changes with respect to this information will be allowed without written authorization of the NHC.

The NNI provides for the following adjustments, which may be made after substantiation of all B-2 entries during tender evaluations by the contract authority:

- A bid adjustment on verified Nunavut content 7 percent;
- A bid adjustment on verified Local content 7 percent;
- A bid adjustment on verified Inuit content 7 percent.

Bidders should be aware that "Nunavut" and "Local" refer to geography, Inuit refers to a race of people. An "Inuit" firm can be from any place to qualify for the adjustment noted above, provided the Inuit firm is registered in good standing with NTI. For example:

- A bid submitted by a duly registered Nunavut, Local, Inuit firm for work in its community of registration could receive a 21 percent adjustment to its part of the work indicated by the bidder on Appendix "B-2";
- For the same work a bid submitted by a duly registered Nunavut, Local, non-Inuit firm for work in its community of registration could receive a 14 percent adjustment to its part of the work indicated by the bidder on Appendix "B-2";

- For the same work a bid submitted by a duly registered Nunavut, non- Local, non-Inuit firm could receive a 7 percent adjustment to its part of the work indicated by the bidder on Appendix "B-2".

For purposes of evaluating and adjusting tenders, to determine the successful bidder, any business wishing to obtain the above noted adjustments must be duly registered and in good standing in the NNI and NTI databases for the Nunavut, Inuit and Local adjustments noted above.

The Web Site for the NNI is www.nni.gov.nu.ca/search and the telephone number is 1 (888) 975-5999.

The Web Site for Nunavut Tunngavik Incorporated is <http://inuitfirm.tunngavik.com/search-the-registry/> and the telephone number is 1 (867) 975-4966.

Wherever a Local or Nunavut or Inuit expenditure is entered, NAME a supplier. Use the supplier's full and proper name as listed in the above noted databases.

Do not leave any spaces blank on Appendix "B-2" for supplier's names where there is a proposed expenditure indicated. This is applicable to all six categories of expenditures:

- .1 Payroll
- .2 Material
- .3 Equipment
- .4 Transportation
- .5 Accommodation
- .6 Other Costs

Where the bidder is the supplier of any of the above noted six expenditure categories, the bidder's name must be entered. Do not leave blank spaces for suppliers' names next to proposed expenditures. No adjustment of a bid can be made based on blank supplier spaces.

Do not show a supplier's expenditures as Local (except for Local payroll) if that supplier is not local to the community of the work. That is, registered as local to that community.

Do not use the terms "airlines", "hotel", "profit and admin", "fuel", "tools", "local", "truck local rental", "vehicles", "local rentals" or "own forces" to describe suppliers. These are not names of suppliers and do not appear in the above noted databases. As a consequence such entries will provide NO bid adjustment.

The Nunavut Housing Corporation is not concerned with "what" the expenditure is for, in the "Name of Supplier" column. In order to evaluate a tender NHC must know "who" is to make the proposed expenditure. State the full name of the firm, registered in the above noted databases as applicable for each expenditure.

Complete the Consolidation of contractor and subcontractor expenditures at the end of Appendix "B-2" and if the bid is amended show **increases/decreases only** on the Bid Amendment Form.

IMPORTANT: make sure the total proposed expenditures on Appendix "B-2" equals the bid price.

APPENDIX "B-2" CAN ONLY BE EVALUATED AND ADJUSTED TO MAXIMUM ADVANTAGE TO THE BIDDER IF IT IS FULLY AND ACCURATELY COMPLETED.

END OF SECTION

DO NOT ALTER THIS FORM IN ANY WAY. USE ADDITIONAL FORMS IF REQUIRED. ALTERING THIS FORM MAY RESULT IN DISQUALIFICATION.

APPENDIX J NUNAVUUMI NANGMINIQAQTUNIK IKAJUUTI - NNI POLICY

The Nunavut Housing Corporation will provide a preference to Bidders in order to promote the use of Inuit and Nunavut Businesses and to encourage the development and competitiveness of Inuit and Nunavut business in accordance with the NNI Policy.

In order to be considered for a preference, bidders must be registered with NNI.

SEE THE POLICY AVAILABLE ON THE GOVERNMENT OF NUNAVUT WEBSITE AT THE FOLLOWING URL:

<http://www.nni.gov.nu.ca>

APPENDIX K CONTRACTOR'S OBLIGATIONS TO PROVIDE INUIT CONTENT**1.0 GENERAL**

This contract pertains to work in Nunavut and contains provisions regarding minimum prescribed levels of Inuit Labour that must be met or exceeded in the performance of the work. The requirements set out in this Appendix K to meet minimum prescribed levels of Inuit Labour are a fundamental term of the contract. The minimum prescribed level of Inuit Labour shall be complied with.

If the amount of Inuit Labour identified by the bidder on Appendix "B-2" of the tender is less than the tender requirements a qualification to the tender submission by the bidder would result and would ordinarily cause the tender to be considered non-responsive.

Where the percentage of Inuit labour differs from the percentage prescribed, a bonus or penalty will be assessed in accordance with the NNI Policy, specifically Articles 12.3 and 12.4 of the Policy. A bonus for exceeding the minimum prescribed percentage of Inuit Labour will be paid, and a penalty will be imposed where the minimum prescribed percentage of Inuit labour is not met.

"Inuit Labour" and "Inuit Goods and Services" identified on the tender forms shall receive a bid adjustment in accordance with the NNI Policy and the adjustment percentages indicated on Appendix B-2 forms. "Inuit Goods and Services" means "Inuit Content" as defined in the Nunavummi Nangminiqaqtunik Ikajuuti (NNI) Policy definition appendix; the NNI Policy is attached as tender Appendix "J"

Damages as described in contract General Condition GC 55 may apply if the Inuit Labour and/or Inuit Goods and Services proposed by the Contractor on the tender Appendix B-2 forms are not met. In addition, if the minimum prescribed levels of Inuit Labour identified on page 4 of this Appendix is not met, then for future tenders where there are similar prescribed minimum levels for Inuit Labour, the Contractor may be deemed "not responsible" (as defined in the Government Contract Regulations.)

2.0 DEFINITIONS

- .1 "Inuit (singular Inuk)" means a person described in Article 1.1.1 of the Nunavut Land Claims Agreement (NLCA) and who has enrolled himself or herself on the Inuit Enrolment List under Article 35 of the NLCA.

APPENDIX K CONTRACTOR'S OBLIGATIONS TO PROVIDE INUIT CONTENT

2.0 DEFINITIONS (continued)

.2 "Inuit firm" means an entity which complies with the legal requirements to carry on business in the Nunavut Settlement Area, and which is:

- .1 a limited company with at least 51% of the company's voting shares beneficially owned by Inuit, or
- .2 a cooperative controlled by Inuit, or
- .3 an Inuk sole proprietorship or partnership; and
- .4 is included on Nunavut Tunngavik Inc. (NTI)'s Inuit Firms Registry

.3 "Labour"

For the purpose of this contract and specifically Appendix K, "Labour" means the Labour (including Inuit labour) used on the job in any capacity and including, for example, trades people, administrative staff and professional staff whether in a head office or in a site office and attributable to this project. "Inuit Labour" refers to the status of employees and may be directly provided by the general contractor or indirectly through a sub contractor, and is not necessarily through an Inuit Firm.

.4 "Goods and Services"

For the purpose of this contract and specifically Appendix K, "Goods and Services" means the entire dollar value of the Work including Labour. For further clarification "Inuit Goods and Services" includes all labour of Inuit firms attributable to and paid from the Contract. "Inuit Goods and Services" are to have the same meaning as the term "Inuit Content" used in the General Conditions of the Construction Contract.

.5 "Inuit Content"

"Inuit Content" is defined as the dollar value of the goods and services required by the Contract supplied by any Inuit Firm or Inuit sole proprietorship and Inuit Labour. Inuit Content may include:

- i. goods and services supplied by an Inuit Firm or Inuit supplier acting as the General Contractor. These are referred to as "own forces";
- ii. goods and services supplied by an Inuit Firm or Inuit supplier so long as these goods and services are required for the completion of the Contract and are paid for by the Contract.
- iii. Inuit labour by an Inuit Firm or a non-Inuit Firm.

APPENDIX K CONTRACTOR'S OBLIGATIONS TO PROVIDE INUIT CONTENT**3.0 REQUIREMENTS**

- .1 The Contractor shall maximize the value of Inuit Labour and Inuit Goods and Services and shall meet or exceed the Inuit Labour minimum level identified in this appendix when bidding. In the performance of the work, the Contractor shall meet or exceed the amounts tendered on Appendix B-2.
- .2 The Contractors shall submit records on a monthly basis, or as specified, indicating the amount of Inuit Labour and Inuit Goods and Services used. No payment shall be due or payable to the Contractor if the Contractor fails to supply these reports to the Owner.

4.0 FAILURE TO ACHIEVE INUIT CONTENT REQUIREMENTS

In addition to the bonus or penalty prescribed by the Nunavummi Nangminiqaqtunik Ikajuuti (NNI) Policy for exceeding or not meeting the minimum prescribed Inuit Labour percentage set out on page 4 of this Appendix K; the following damages may apply for not meeting Inuit Labour and /or Inuit Goods and Services requirements:

- .1 There is a requirement to provide no less than the levels of Inuit Labour and Inuit Goods and Services tendered by the Contractor on Appendix B-2 of the tender. Failure to meet this requirement by achieving the levels tendered may result in the Owner applying damages described in the contract General Condition GC 55.
- .2 Additionally, the Owner may deem the Contractor to be "not responsible" (as defined in the Government Contract Regulations) for future tenders where there are similar prescribed minimum levels for Inuit Labour if the contractor fails to meet the prescribed minimum Inuit Labour on page 5 of this Appendix K.
- .3 The Owner may terminate this contract prior to Final Completion if the Contractor has not demonstrated compliance with the requirement to attain the prescribed minimum percentage of Inuit Labour set out on page 4 of this Appendix K.

5.0 INDEMNIFICATION

- .1 The Contractor shall indemnify the Owner against any claim brought by any person because of any failure by the Contractor to achieve the prescribed levels of Inuit Labour prescribed by this contract.

6.0 WAIVER OF INUIT CONTENT REQUIREMENTS

- .1 The prescribed level of Inuit Labour shall only be reduced when sufficient Inuit Labour is not available and the Contractor has requested and received prior approval by the Owner in writing to reduce the prescribed levels.

APPENDIX K CONTRACTOR'S OBLIGATIONS TO PROVIDE INUIT CONTENT

<p>Inuit Labour</p>	
<p>It is a fundamental term of this contract that the contractor shall maximize the value of Inuit labour used to perform the Work. Therefore the GN has set a minimum percent by dollar value for the use of Inuit labour. The Inuit labour content may be provided by the general contractor or any subcontractor and may include professional or administrative staff or skilled or unskilled trades people, and not necessarily through an Inuit Firm. The minimum may only be reduced where sufficient Inuit labour is not available and the approval of the Owner has been obtained in writing.</p>	
<p>For the purposes of this contract the GN has prescribed that the following minimum percent of the total labour for this job by dollar value shall be provided by Inuit workers.</p>	<p>Prescribed minimum level of Inuit labour as a percent of total labour by dollar value:</p> <p style="text-align: center;">Baker Lake 40%</p>
<p>Substantiation</p>	
<p>In order to substantiate the amount of Inuit Labour the general contractor shall be responsible for providing an amalgamated employment report that shall reflect the Inuit labour used by the general contractor and any other sub contractor or supplier. The general contractor shall submit this employment report with every Progress Claim. Receipt of an employment report shall be a condition precedent to the release of a progress payment, an interim payment and/or a final payment.</p> <p>If requested, the general contractor shall also provide a completed "Employee Verification and Consent Form" for an Inuit worker.</p>

- Ensure that caution is taken to reduce the risk of fuel spills, if any fuel spill occurs it is to be reported to the proper authorities and the Contractor will be responsible for all associated costs in the cleanup of the spills. You may want to ensure you have fuel oil absorbent material on site as this may help in the confinement of a spillage should one occur.
- Clean out interior of existing fuel tank.
- Pump the good clean fuel oil from the existing tank into clean temporary holding tanks;
- Water and sludge shall not be transferred if oil is pumped from a replaced tank to a new tank.(CSA B-139-09 sec 7.12.4);
- Dump the sludge and dirty fuel oil and water into containers for discard; follow all National, Provincial/Territorial or Local authorities' environmental regulations .
- Drain residual oil out of the drip leg and oil lines into the waste oil drum then disconnect the union;
- Assemble new fibreglass oil tank stand according to manufacturer's instructions;
- Reuse of existing pad, under legs of the fuel tank stands, contractor shall inspect before re-using and if damaged/rotten replace with new (supplied by LHA).
- The Contractor is responsible for the storage and disposal of all contaminated material for the work site
- Install new 250 gallon fuel tank stand (paint silver/grey).
- Install trim for the complete operational installation (gauge, vent whistle, flex line, drip leg line without valve, shut off valves, etc.).
- Verify that the existing oil piping configuration is similar to the attached diagram, making sure that the following essential components are present; drip leg line with cap (no valve), (gate/ball valve WOG) next to tank, 1" x 12" or 2"x 18" braided flex line, proper piping supports under the building, union, etc. (CSA B-139-09 sec 9.3.1.4);
- Note: All black iron parts are to be new (supplied by LHO)

- The stainless steel flex joint will be installed in a horizontal position, located between the oil tank and the house, this section is to be placed in a horizontal position with minimal sagging;
- Ensure exterior oil line is installed with proper pipe hangers & supports under the house and to the oil tank (CSA B-139-09 sec 7.3) Support installation, foundations and anchorage;
- Fuel lines are to be the same size from fuel tank to the fuel filter;
- Seal, insulate and caulk all oil line interior and exterior penetrations into the house;
- The lowest point on the oil piping will be at the drip leg, to allow water and dirt accumulation;
- Once permanently installed, the tank should have a slope of ¼" per foot with the low end being at the drip leg (CSA B-139-09 sec 7.12) Testing of new or replacement tanks;
- Fill fuel tanks with clean fuel;
- Check tank and fuel lines for leaks and repair if needed. The Contractor will be responsible for any clean up;
- Check to ensure fusible link (shut off valve) is present and that the valve is operating properly; if the fusible link shutoff valve is not install. Install new fusible link shutoff valve (CSA B-139-09 sec 9.1) Fuel-containing Devices
